

Xtreme Outdoors Announces Little Guy Micro Max

The most garageable, full-featured Little Guy travel trailer is in production now.

FOR IMMEDIATE RELEASE: Uniontown, Ohio, January 21, 2022 – Xtreme Outdoors is excited to announce its newest addition to the Little Guy product line: The Little Guy Micro Max. The Micro Max is designed to fit in most residential garages, which is one of Little Guy’s most sought-after features. With a starting weight of just 1,780 lbs., the Micro Max makes Little Guy trailers accessible to a larger customer base than ever before.

Manufactured by Xtreme Outdoors in Somerset, Pennsylvania, the Micro Max features the same high quality materials, superior craftsmanship, and thoughtful details as the rest of the “Max” line.

The interior space of the Micro Max is designed for maximum versatility. It can seat a total of 6 adults in the front and rear and dinettes. It can sleep a total of 3 adults with the dinettes converted. Along with ample storage and a helpful control center, the Micro Max helps bring all the comforts of home on the road.

Making meals is a breeze with the Micro Max’s convenient interior kitchen. The kitchen includes a 2-burner glass top stove with electric ignition, a residential-style sink with a high rise metal faucet and sprayer, a 1.9 cubic foot refrigerator, and a stainless steel microwave. The swiveling and rotating dinette table tops provide versatility and extra counter space, as needed. With these features, the Micro Max kitchen is big enough (or small enough) for every culinary need.

The Micro Max includes many more residential-style features. Every corner of the Micro Max is occupied by smart storage space: including the floor-to-ceiling media cabinet with cubby, several under-bed cabinets, and a spacious exterior storage compartment. The media cabinet also houses the control center, which controls the entertainment, interior/exterior lights, climate settings, and tank monitoring. Along with the direct-ducted furnace, and remote controlled A/C, the Micro Max makes comfort easy.

“The lightweight, garageable Micro Max is great for customers with smaller vehicles that still want the luxury of an RV! We have packed in so many features that will make this a home away from home. Ample storage, large windows, and many residential features that make this the perfect get away trailer,” said Xtreme Outdoors Sales & Marketing Manager, Jessica Lovett.

“We have been perfecting the Micro Max for some time now. We have listened to our customers’ requests and are beyond excited for the official launch! Our team at Xtreme Outdoors has been crucial to the quality and craftsmanship of the Micro Max and we cannot wait to share it with the RV world,” said Xtreme Outdoors Director of Sales, Joe Kicos.

The Micro Max was named as one of RV Pro’s Best New Models of 2022. RV Pro, a national RV trade publication, came away impressed with everything the Micro Max has to offer.

RV Pro writes in their November 2021 issue:

“The Micro Max proves that good things can come in small, and in this case, light weight packages, which the standard pickup, SUV or sedan can tow. And it does so without sacrificing any of the key ingredients that make Little Guy products so desirable.”

The Micro Max is in production now, and on display at upcoming RV shows around the United States. The Micro Max will make its debut at the Florida RV Super Show in Tampa, Florida Wednesday, January 19 through Sunday, January 23, with the support of retail distribution partner, General RV Center of Tampa.

See golittleguy.com/micro for more features, specifications, and a 3D virtual tour. Dealer opportunities are available now. For more details, please call **1-888-469-8688**.

Established in 2019, Xtreme Outdoors’ mission is to deliver high-end recreational products with superior features and design for outdoor enthusiasts worldwide.
